## WORKING EXPERIENCE

- 04/2016-Present **Real Consulting, OneDealer Department**  
**Senior Application Developer**  
Working as a fullstack developer in User Interface for the main projects of the company based on a web ERP/CRM platform (OneDealer Sales and Lead and OneDealer Lean Service Factory).The technologies involve ASP.NET MVC 5, and SAP HANA in the back and Javascript/jQuery/KendoUI and KnockoutJS in the front. The products are powered by SAP BusinessOne and SAP HANA database.
- 03/2015- 04/2016 **Inspired Mobile**  
**Front End / Javascript Developer**  
Developing new features and components for a web application that produces micro sites for mobile devices. The application is based on Object Oriented Javascript and jQuery. It uses Restful services to communicate with the server based on WebAPI. I was the lead developer of this platform providing also maintenance and future planning.
- 03/2011- 03/2015 **Out There Media S.A.**  
**Web / Mobile Developer / Javascript Developer**  
Developing mobile web sites or mobile web applications using front-end technologies such as HTML5, JavaScript and PHP in the backend. Working closely with the designers to design and implement the best user experience. Implementing the new UI of Out There Media Mobucks Platform. Testing through various mobile browsers and devices. Implementation of over 120 projects for well-known Telecommunications Operators, such as T-Mobile US, T-Mobile Germany, Maxis Malaysia, Globe Philippines, Smart Philippines, XL Indonesia, Vimpelcom Russia, Cosmote Greece, and clients such as BMW, Coca Cola, Samsung, Lenovo, P&G, Unilever, etc.

2010- 2011

**Freelance**

**Web developer**

Development of various web sites and web applications. One of the latest projects was the development of part of the official website of the University of Piraeus. This project involved implementing a component for the Joomla MVC framework, connecting the university's LDAP server to the CMS through PHP and creating their dynamic address book. Also parsing XML files through PHP and creating user access groups.
